

Project Manager (m/f/d)

Our Client is a global provider of financing solutions. They offer asset-backed lending and leasing, concentrating on assets that are critical to the core operations of customers. Their primary mission is to support the other business units by ensuring customers have the financing they need to buy and take delivery of their products.

Project Manager (m/f/d)

Your future tasks and responsibilities:

- You will be responsible for the development and management of the release schedules for a variety of projects
- You will work directly with users, global stakeholders, and customers during all phases of the project to deliver in agreed timeframe
- Create and maintain product development schedules and roadmaps, by collaborating with the Product Management, Support, Development and Sales organizations and Partners
- On-site meetings with Partners
- Lead SAFe ceremonies and track status of activities, in conjunction with the Scrum Master
- Collaborate with stakeholders to provide the best service to the customer and work with support to ensure issues are resolved in a timely manner
- Work with stakeholders to use current Best Practices and to introduce new Best Practices where necessary
- You collaborate with data analysts to ensure the correct metrics are tracked and actioned
- Track risk, issues and opportunities and ensure metrics are analyzed to identify potential concerns - stakeholders are advised of options for resolution

Your Profile:

- A Bachelor Degree
- You should bring a software development SAFe and Project Management background
- A minimum of 3 or more years of traditional project management
- 3+ years of Agile/SAFe experience
- Excellent communicator of design work and your rationale behind proposals to internal stakeholders and customers
- Team player and self-starter who can organize activities and deeply collaborate with other designers and subject matter experts
- Ability to provide continuous improvement ideas and innovate to bring efficiencies to the Release process
- Ability to facilitate collaborative workshops with team members and stakeholders
- Strong written and verbal communications skills in English and German
